

Vegetarian In Progress

Mother pigs sing
to their babies
while nursing.

Mother cows are deeply
caring and form strong
bonds with their babies.

The most
violent weapon
on earth is the
table fork.

GO FULL VEGGIE ON VALENTINE'S DAY, FOR THE LOVE OF ANIMALS

This *Valentine's Day*, commit to leaving animals off your plate as a statement of love and compassion. Go full veggie on this day that signifies love. ..AND think about why you love your dog and cat but eat the chicken, cow and pig..!

Hens communicate with their chicks before they even hatch!

When the babies are still inside their shells, the mother hen clucks softly to them and they chirp back. 

Please remember to buy only pasteur-raised eggs & to pass this email your mailing list. Thank you! Lois
