## Need a reason to give up pork? Take your pick!

Pigs are gentle creatures with surprising intelligence. Some studies suggest they're smarter than dogs and even three-year-old children.

### What?...

- Pigs that are sad or grieving are known to cry **real tears**.

- Pigs are actually very **clean** and prefer to be clean. If allowed, they will keep their toilet area well away from their food and bed. Regarding wallowing in mud, it is a way for the pig to cool off and apply a protective coat against insects.

### Sadly...

- 1.8 million electrically **stunned pigs regain consciousness** before they die from loss of blood.

- 244,800 pigs a year are **not stunned at all** and suffer the terror of seeing other animals killed before suffering the same fate.

- Four million pigs a year are stunned with carbon dioxide gas. It takes pigs up to 30 seconds to lose consciousness and during that time they will squeal, hyperventilate and try to escape.

- All factory farms **cut off their tails** and have their **ears painfully notched**, without anesthesia .

### Did you know?

<https://vegnews.com/2015/6/11-things-you-didnt-know-about-pigs>

**What you can do:** *Try to eliminate pork from your diet. Think of what this sentient animal goes through to get to our plate.*

Please remember to buy only cage free eggs and pass this email to your mailing list.
